The Hospitality Management Career Program prepares students for various types of management positions in the hospitality industry. Career opportunities in this fast-growing industry exist in such diverse sectors as travel and tourism, lodging, the restaurant industry, recreation and leisure, gaming entertainment, and conference and meeting planning. Students are encouraged to maintain part-time/summer work or internships throughout the degree program. All HCC business degree programs are accredited by the Association of Collegiate Business Schools and Programs, and HCC is one of only three community colleges in Massachusetts with this certification.
